Objectives

According to the European Commission, the State of Israel is responsible for an unprecedented level of killing and injury of civilians, a large-scale displacement of population and the systematic destruction of hospitals and medical facilities in Gaza. [1] Israel also implemented a blockade of humanitarian aid that could amount to starvation as a method of war. Israel is in breach of multiple rules and obligations under international law and fails to prevent the crime of genocide as ordered by the International Court of Justice.[2]

Yet the European Union has still not suspended its association agreement with Israel, which is the cornerstone of EU-Israel bilateral trade, economic, and political cooperation.

EU citizens cannot tolerate that the EU maintains an agreement that contributes to legitimize and finance a State that commits crimes against humanity and war crimes.

Therefore, we call on the Commission to put forward the proposal to the Council for the full suspension of the EU-Israel Association Agreement.
